

College of Engineering & Computer Science

This document represents the official identity configurations (lockups) for the College of Engineering & Computer Science.

Official artwork should always be used.

Never recreate these configurations by typesetting or creating variations.

Lockup Configurations Variations

Full configuration

The full configuration is the preferred variation to use in most applications.

Small space variation

The small space variation should be used in small applications or when the full configuration does not fit or allow for adequate sizing and legibility.

File usage guidance: Please use the guidance below to help you select the correct file.

File type & use

- **.eps** — print
- **.jpg** — digital or print
- **.png** — digital
