TurningPoint Student Response System - "Clickers"

Changes for Fall 2017

- The Fall 2017 Blackboard system is configured to work with TurningPoint Cloud (version 7.5 or higher) or TurningPoint 8. Click here for more information on checking your version and updating.
- Syracuse is now using a new sign-on method called Single Sign-On (SSO). You will now use your SU NetID and password to sign-on to TurningPoint rather than a password created at the TurningTechnologies website. This new method is both more convenient and more secure.
- Click here for updated pricing and syllabus statements.
- If your students will be using clickers, contact the SU Bookstore with the approximate number of students and the type of clicker you require.

- Student Turning Account
- Instructor Information
