Embedding a YouTube Video in an Assignment

Get the “Embed Code” from YouTube

1. Go to the YouTube account where you uploaded the video and browse to the video.
   a. Ensure you’re logged in.
   b. Click the user icon in the upper right-hand corner and select Creator Studio.
   c. If you cannot see your videos, click on either Dashboard or Videos.
   d. Click on the thumbnail of the video you intend to submit to go to its regular viewing page.
   e. Click on Share and then Embed in the floating window that appears.

2. Click on Copy in the lower right-hand corner of the next floating window that appears. This puts the code that you’ll need to paste into Blackboard onto your computer’s clipboard.

Paste the Embed Code into Blackboard

1. Enter the Blackboard course and assignment area where you need to embed your content
2. Click Write Submission
3. If necessary, expand the tool palette with the double-arrow button and then click HTML.

4. In the pop-up window, Paste your embed code and click Update.
5. Back in the regular assignment window type or attach any other documents required and then click Submit.

When finished, make sure to click Submit.
Optional, click Save as Draft to save changes and continue working later, or click Cancel to quit without saving changes.

6. On the submission page, you should be able to see and play your embedded video.
