Procuring Accessible IT: Training Resources

Resources to learn more about web accessibility testing and tools.

General Training Resources

Accessibility in the Procurement Process (.pptx)
If you are new to the process, view this presentation to learn about standards and tools, impacts, and the procurement process.

ITS Accessibility Workshops/Webinars
An ongoing series of workshops and webinars to build faculty and staff awareness of, sensitivity to, and proficiency in ensuring the accessibility of information communications and technologies.

Web Accessibility Testing (Webinar Recording)
Webinar about WCAG guidelines/success criteria & evaluation tools/techniques.

Accessibility Testing Tools/Resources

Browser Extensions

WAVE Tool Help from WebAIM.org
The WAVE Chrome and Firefox extensions allows you to evaluate web content for accessibility issues directly within Chrome and Firefox browsers.

Screen Readers
Screen readers assist people who are blind, have low-vision, or have certain cognitive disabilities to read, navigate, and interact with computers and the web. Testing with a screen reader is an important step in the accessibility testing process.

JAWS Basics for Web Accessibility Testers
Learn the basic commands for web accessibility testing with the JAWS screen reader (for use on a PC with Chrome)

NVDA Basics for Web Accessibility Testers
Learn the basic commands for web accessibility testing with the NVDA screen reader (for use on a PC with Firefox)

VoiceOver Basics for Web Accessibility Testers
Learn the basic commands for web accessibility testing with the VoiceOver screen reader (for use on a Mac with Safari)
