ITS Computer Labs

Information Technology and Services has public computer labs conveniently located around campus for students to use. The computers are directly connected to the SU campus network, allowing e-mail transactions and Internet access.

Lab Access During COVID-19

Please note that during the campus response to COVID-19, buildings through campus have been secured and are not accessible unless you are a staff or faculty member with prior card swipe access. If you require access to a lab machine, please refer to our Remote Access page for available remote connection options.

ITS Computer Labs Information

Types of Computer Labs

There are two types of computer labs available.

Departmental

Some academic departments, such as Maxwell and Newhouse, manage their own labs. To access departemental computer labs, contact the respective academic department or visit School and College Support page.

ITS Public Computer Labs

These public labs are managed by ITS. Most of the information presented on this Web site focuses on ITS public computer labs.

Using ITS computer labs

In order to use any of the computers within the labs, you must have a valid NetID and password. Please manage your credentials on the NetID Self-Service page.
