Problem Overview

You would like information about an SU listserv list, for example a description of the list, the host site, the list owner.

Solution

Send an email to listserv@listserv.syr.edu.

- Delete the signature line if it is included automatically.
- Include the following line in the body of the message:
  info listname
  where listname is the name of the list.

If this is a private list (and many are), you'll need to contact the owner(s) at listname-request@listserv.syr.edu, e.g., for the list "clocks", send email to clocks-request@listserv.syr.edu.
