Workstation Access

The Libraries computer workstations require a NetID and password log in and are reserved at all times for those with an SU/ESF I.D. card or alumni card (SU students, faculty, staff, alumni and spouses/partners/dependents).

Any library patron may access the library catalog through quick look-up stations located on floors 1-5 of Bird Library or request access to the government documents.

If you have a problem logging into a workstation, please check that your password is correct by visiting SU NetID Services.
