Submitting a Turnitin Assignment in Blackboard- Students

Topic Overview

This document describes how students can submit a Turnitin assignment in Blackboard.

⚠️ Students may experience problems when uploading a Turnitin assignment when using Safari as their browser. Students are encouraged to use Mozilla Firefox to upload Turnitin assignments. More information on this issue can be found here.

Submitting an Assignment with Turnitin

Student make submissions from the content area in the course where your instructor has posted the assignment. Once you click on the assignment link, you'll see a new user interface for making the submission. Clicking on the assignment title or the question mark at the end will open the assignment details including the due date and any instructions provided by your instructor.

The submission process includes a step to "Upload and Review" after which you can "Preview" and "Submit to Turnitin." The user interface displays a large green check with a "Submission Complete!" message.
You will receive a digital receipt by email or you can download it from the assignment page.

Students with additional questions can view student support pages from the vendor or contact the help desk for assistance.
