

# Running reports for courses by section

Some faculty members have had questions regarding further information on larger courses. The path to be able to run class lists by section is through Hyperion. (My Reports on MySlice)

Using Hyperion in follow the path Student Records>Course Class> ClassList Detail-Dashboard, make sure you change the term to the current state as it defaults to Fall 18.

Click on Catalog number so you can then select the course section of your choice. This will give you the information you are looking for.
