

Adobe

The Newhouse School has provided licensing for the Adobe Creative Cloud for all students enrolled in active residential Newhouse courses for the current semester. In order to use this suite of software, students are required to have access to computing resources that meet the schools minimum technology requirements. Please refer the [Newhouse technology requirements](#) page for more information. Eligible students will need to install and login to the Adobe Desktop App on their personal computer in order to access the assortment of software provided.
