## About the App

*Syracuse University Mobile* is a free mobile application for Syracuse University that puts SU in the palm of your hand. The app provides a wealth of current information about SU, including secure access to student information in MySlice.

The app delivers the latest University news and events, access to SU's online directory to search for students, faculty, and staff, campus maps, interactive SU social media, and more.

[Top of Page](#)

## Downloading the App

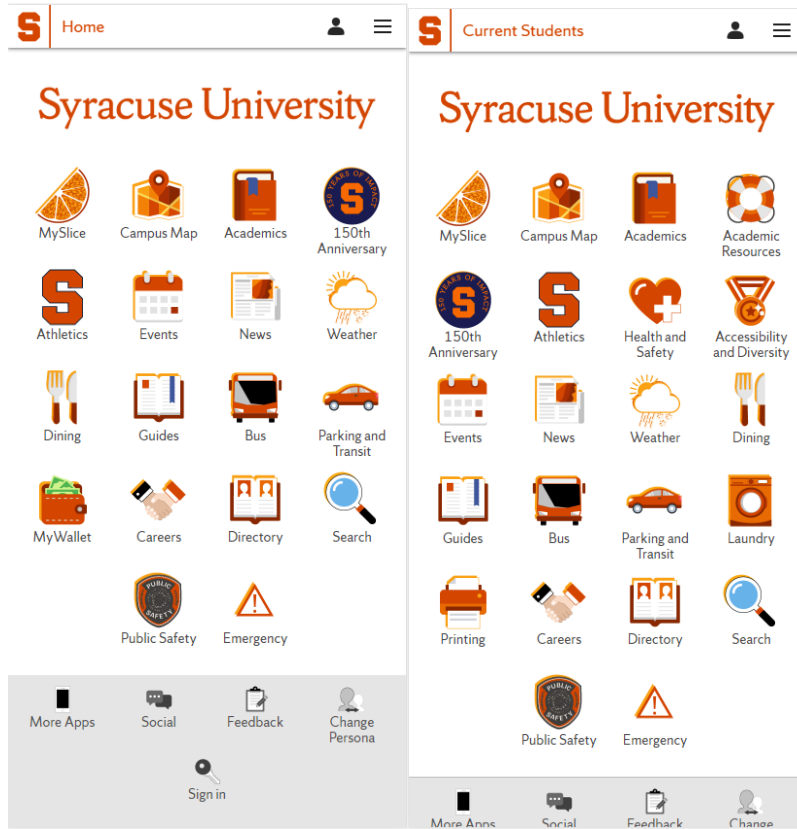

You can download the free SU Mobile app in the [Google Play store](#) and [Apple App store](#).

[Top of Page](#)

## Current Features

The current version of the application includes the following features.

### Personas

There are currently two persona's (views) to choose from:

- Syracuse University Community
- Current Students

### MySlice Services Modules

You'll have access to the following Myslice student services modules:

#### Student

- Grades for all semesters during which the student took courses
  - Entries include links to all class details
- Class Schedule (current term only)
- Class search
  - Current and next term (when available)
  - Search using many criteria including subject area, subject code, course number, course career, class number, course keyword, mode of instruction (in person, online, etc.), session, days and times
  - Class details available for each result: Start/End dates, days, class location and times and all dates and deadlines (Financial Drop, Academic drop, Class add, withdrawal)
- Exam schedules

#### Faculty

- My Schedule
- Class Roster
- Grade Roster

## Single Sign On Integration

Sign into the Syracuse University Mobile app to quickly access Blackboard, Student Events, or Career Opportunities.

## SU Food Services menus and locations

Connect directly to the Food Services website for menus, locations, and hours

## SUbus tracking and schedules

The [SUbus app](#) provides real-time vehicle locations and estimated arrival times of the Centro bus lines around the Syracuse University area.

## LaundryView

Laundry lets you see what washers and dryers are available in campus housing, and will send you status alerts for availability and for your load in progress.

## Quick links to other recommended applications like Tapingo, LinkedIn Learning, LiveSafe, SU Guides, and more

Install, and then link directly to multiple useful apps on your device.

## SU News feed

Syracuse University News is updated daily with stories about the people, events and scholarship occurring on campus, in the City of Syracuse, at our regional locations throughout the country and across the globe. Syracuse University News also contains listings of University events, campus announcements, faculty and student news, and highlights from local, national and international press coverage.

Each weekday during the academic year (and weekly during the summer and winter breaks) News Services staff curate and compile a summary of news from across campus in the form of a daily electronic newsletter, SU Today.

## Campus Map

Find a desired campus location. Maps include general campus locations, specific buildings and floor plans for quick navigation of building interiors.

## SU Events Calendar

The Syracuse University Event Calendar offers a comprehensive listing of major campus events, with detailed information about each event.

## SU Directory

Need to find someone affiliated with the university. Find public contact information searchable by first and last name, campus contact number, and email address.

## Social Media

Stay connected in with the following social media features:

- View and share items from these modules from within the app
- Aggregates the main SU Twitter and Facebook accounts
- SU YouTube channel available in Video module
- Photos module uses SU Instagram feed

[Top of Page](#)

## Future Features

Additional features and content updates may include:

- Birnie Bus information and schedules
- Photo ID - students can snap a picture and upload as a service
- Library links to search and access library resources

## Have an Idea for Future Features?

The ITS development team is looking to get suggestions for enhancements and new functionality. Everyone is encouraged to send ideas and comments from within the Feedback tab of the application or by emailing [help@syr.edu](mailto:help@syr.edu).
