

# Blackboard

**Access:** <https://blackboard.syr.edu>

Login with your SU NetID and password

**About:** The **Blackboard Learning and Community System** is a course and organization management system that makes the creation, organization, and management of course content on the web relatively simple. Blackboard can be accessed through a web browser from any computer with Internet access. Faculty and students will have access to Blackboard courses on a nearly continuous basis. Blackboard @ SU is intended for supplemental use in supporting on-campus, face-to-face classes listed in the Time Schedule of Classes as well as online courses.
