PREFACE

This handbook contains essential rules and policies for undergraduate and graduate students in the Syracuse University School of Architecture.

Other helpful University publications—such as Academic Rules ([undergraduate](#) and [graduate](#)); [Tuition, Fees and Related Policies bulletin](#); and the [Syracuse University Student Handbook](#)—are also available online. You are strongly encouraged to become familiar with their contents.

Students can find resources to help stay academically, emotionally, and financially fit, browse events, link to resources, connect with friends, and get involved at syracuse.edu/life/students.

1 NON-ACADEMIC RULES AND POLICIES (Undergraduate and Graduate)

1.1 STUDIO USE + POLICIES

Slocum Hall Hours

The building is open Monday through Thursday from 7 a.m. to 10 p.m., Friday from 7 a.m. to 6 p.m., and Saturday and Sunday from 8 a.m. to 7 p.m. Students can only access Slocum Hall during these times. Hours of access to facilities within the building are posted on the entrances of the King + King Architecture Library, computer facilities, laser cutting room, and wood shop. Facilities are closed to non-architecture students and faculty outside of business hours. Anyone not associated with the school should be accompanied at all times.

Building Security

Slocum Hall is intended for the use of School of Architecture students, faculty, and staff only. For safety reasons, all doors must remain closed and locked after hours and personal belongings must be secured when not in use. Security cameras have been installed in stairwells and at all entry doors to aid in deterrence. Please report suspicious activity to the Department of Public Safety at 315-443-2224, #78 (#SU) from your cell phone or by dialing 711 from a campus landline.

Please note that removal of any University property from the building is considered theft and will be reported to the Department of Public Safety as well as to the Office of Student Rights and Responsibilities.

Desks

Every design student is assigned a workspace—with provision for locking drawers with padlocks or locked storage units—and a stool. Students are responsible for proper maintenance of this equipment and the prompt reporting of any problems or damage. Workspaces must not be damaged through cutting or other model-making activities; each studio will have a designated cutting surface for model building and students should own a plastic cutting surface. Desk repair request forms are available in the Dean's Suite (204); see Beth Pierson.

Partitions

Independent partitions in studio, built by students, are not permitted under any circumstances and are subject to removal. For fire safety reasons, all aisles, passageways, and exits must be kept clear of obstructions.

Sound Equipment

In consideration of other students, radios, mp3 players, laptops, CD players, and other types of sound equipment may only be used with headsets; this rule applies 24 hours a day.

Use of Electrical Devices

The use of multiple electrical devices requires the use of a surge protector. All surge protectors must be grounded (3-prongs). For safety reasons, the use of extension cords is prohibited. Violations of these practices create serious fire hazards and are subject to appropriate judicial procedures.

Studio Cleaning and Recycling

During the semester - Custodians are instructed to remove from studios all items that are either in a trash receptacle or on the floor, and they adhere to these instructions strictly. Anything left on the floor will be discarded. Trash accumulated on top of desks and under desks will not be removed. Please deposit trash in the designated receptacles to avoid fire hazards, increase work space, and maintain an orderly environment.

Recyclables (glass, cans, plastic, and paper) should be placed in the appropriate containers, which can be found throughout the building. Used cutting blades, batteries, and aerosol cans should be deposited in the white discard containers located within each studio. Do not dispose of blades in the regular trash as they are hazardous to the custodial staff.

End of each semester - Students must remove all supplies and other belongings from Slocum Hall at the end of each semester as directed by the building coordinator so that studios can be cleaned and maintained. **Any items left behind will be discarded (NO EXCEPTIONS)**. The School will store studio chairs over the winter holidays and over summer break, free of charge.

Injuries

For minor cuts and injuries, first aid kits and medical supplies are available in all studios, faculty suites on the third floor, the wood shop and in the main office. For more serious injuries or if you are in need of medical transportation, please call 911 or the Department of Public Safety at 315-443-2224, #78 (#SU) from your cell phone or by dialing 711 from a campus landline. The Student Health Services Center, 111 Waverly Avenue (315-443-2666) is available during the day and some evenings. It is closed on Sundays. For off-hour medical needs, several other medical facilities are available in the university area, including Crouse Prompt Care (Irving Ave and Waverly Ave), Crouse Hospital and University Hospital.

Syracuse University students are encouraged to download [Rave Guardian](#), a free mobile app that turns any smartphone into a personal safety device by seamlessly integrating with the campus Orange Alert system.

Hazardous Materials

Slocum Hall is equipped with a ventilated spray booth which is accessible 24 hours a day next to the wood shop on the ground floor. All spraying must be done in the spray booth to avoid damage to property and serious risks to health. Spray painting and use of spray adhesives in other areas inside or outside Slocum Hall (especially the back loading dock and back stairwells) is strictly forbidden. Flammable materials should be kept in the fire closets also found in the Slocum wood shop. Use of these materials outside of the designated area can be extremely dangerous to everyone in Slocum Hall. Any violations are subject to appropriate University disciplinary action.

Use of the following hazardous waste materials in Slocum Hall is RESTRICTED to the spray booth:

- solvents and flammables: mineral spirits, acetone, and turpentine
- art chemicals: oil-based paint, brush cleaner, pigments, glue, epoxies, and resins
- oil-based products: varnish, urethane, stain, surface coatings and adhesives
- aerosol cylinders or pressurized containers of adhesives
- two-part epoxy resin (sold at Slocum Hall bookstore) only

In Case of Theft

Report thefts to the Department of Public Safety desk located in Sims Hall. The University is not insured against loss of student personal property. Do not leave valuable items (including books) unsecured in the studios; desks and lockers should be locked when unattended. There is no secure storage available between semesters or academic years; personal belongings left in the building during the mid-year break or during the summer cannot be presumed to be safe.

Removal of any University property from the building is considered theft and will be reported to the Department of Public Safety as well as to the Office of Student Rights and Responsibilities.

1.2 COMPUTING

Computer Lab Policies

The School of Architecture offers 24-hour access to two computer labs in 004 Slocum and 014 Slocum.

- All users of the computer labs are required to attend a computing orientation session prior to receiving access. Details for obtaining access can be found at soa.syr.edu/accounts.
- Model building of any type is prohibited in the computer labs. The tables and floors in the labs are not to be used for cutting or scoring. Painting, pasting, drafting and gluing must be done in the designated studio and model shop areas in Slocum Hall and not in the computer labs.
- Food and drink are forbidden in the computer labs and plot room at all times. Anyone seen with food or drink in these spaces will have their computer account and access to lab computers, plotting and digital fabrication disabled for a minimum of two days.
- Unauthorized reconfiguration of hardware or software on the lab computers is not permitted.
- Display or printing of graphic materials that might contribute to an atmosphere of sexual or other forms of social and/or cultural harassment or intimidation is forbidden.
- Vandalizing or removing any of the computer equipment will result in loss of lab access.
- Unauthorized use of someone else's account to login, or loaning one's account to others is not allowed.
- Remaining logged into a lab computer while not present is not permitted; unattended computers are automatically logged off after 25 minutes, and unsaved work will likely be lost.

Plotting Policies

- The plot room in 013 Slocum is open only when a plot monitor is on duty in the room. Accessing the plot room when it is closed is prohibited.
- Plot supplies are handled only by designated monitors.
- Fees are charged for all printing and plotting on school-owned devices. See soa.syr.edu/printfpay for the most up-to-date plotting fee structure and procedures.
- Only architecture course-related items may be printed on the printers and plotters.
- Your account will be suspended if you change the priority of your print jobs to jump ahead of others on the print queue.

Studio Computer Use

Students may bring their own computers and use them at their studio workspace (laptops are strongly preferred, and wireless capability is required).

School-Wide Computer Practices & Recommendations

The School does not distribute or support unlicensed copies of software. Pirated software and cracks may contain malware that can affect the performance of a computer, as well as steal personal information or attempt to infect other machines on the network. Students must keep the original sales receipt of software purchased for their own computer if it is to be connected to the school network. Instructors of course work that use computing media may require students to provide a copy of the purchase receipt(s) for relevant software programs. This requirement is necessary for the School to avoid licensing violations and comply with software copyright laws. Copyright law forbids the copying or 'borrowing' of software programs owned or licensed by the School on lab or other school computers. Any student found copying, attempting to copy or in possession of illegally copied software may face disciplinary action by the School and University, including criminal prosecution.

The School of Architecture assumes NO responsibility for theft or damage of equipment left unattended in studios or computer labs. Students must secure their machines by using lockers or other lockable methods. Students who wish to have insurance should seek personal policies or check for coverage under existing policies. Students are reminded, as with all studio security, to take collective responsibility for excluding people who don't belong in the studio. All problems should be reported to staff in 201 Slocum and/or the Department of Public Safety at 315-443-2224, #78 (#SU) from your cell phone or by dialing 711 from a campus landline.

Note: These regulations are subject to change as the School's computing environment and practices evolve. Refer to the latest Computing Acceptable Use Policy and Practices: soa.syr.edu/accounts. Students engaged in one or more prohibited computing practices may have their accounts suspended, removed and/or face disciplinary action through the Office of Student Rights and Responsibilities.

1.3 FABRICATION LAB

The Slocum Hall Fabrication Lab is comprised of four rooms located on the west end ground floor (Rooms 006, 008, 011 and 012). After safety orientations and training, students may use the shop to complete assignments that involve physical and digital fabrication.

The shop is specifically intended for School of Architecture students' school-related projects and can accommodate work ranging from small-scale models to full-scale working prototypes. The shop is staffed by two full-time technicians during the day and a part-time technician and qualified student monitors during the evening and/or weekend hours. For more information about use of the shop facilities, students should refer to the wood shop training and safety protocols posted on the School's website.

A two-hour wood shop orientation session is required for all students. After completing this session, students are free to use the facility and receive training as needed. Fabrication lab staff technicians are responsible for training and authorization on lab equipment. Students must abide by the shop rules and seek training from the staff before attempting to use unfamiliar tools and equipment. Failure to do so could result in injury, machine damage or restricted use of the shop.

A secondary digital facilities orientation session arranged by faculty is also available.

The Labs are open only when a qualified monitor is on duty. Any student using the labs without a monitor on duty, using the machines and tools in an unsafe manner, and/or leaving the space in disarray or vandalized will lose lab privileges and/or face disciplinary action through the Office of Student Rights and Responsibilities.

Laser Cutter

The School maintains four laser cutters located in 011 Slocum. These are sophisticated digital fabrication instruments that are available to architecture students and faculty on a scheduled basis through a strict set of operating protocols. The laser cutter protocols and list of acceptable materials can be found at soa.syr.edu/laser.

3D Printer

The School's 3D printers in 012 Slocum are available for use by architecture students and faculty on a first-come, first-served basis. There is a fee required to use the printers. Students can submit files to a queue, and digital fabrication staff will print the models and update the online queue located on the SOA digifab website (soadigifab.syr.edu) when models are completed. Students are invited to help with post-processing of the models in order to get hands-on time with the machines. The 3D printer protocols, instructions for use, fee structure and job submittal form can be found at soa.syr.edu/3d.

CNC Mill

The School has two CNC mills located in 006 Slocum, a large 4' x 8' mill, and a smaller 4' x 4' mill. Details on use of the mills, fees for use, and job submittal form can be found at soa.syr.edu/cnc.

Formech 450 Vacuum Former

The School's vacuum former in 008 Slocum can handle plastic sheet materials up to 18" x 18" with a maximum pull depth of 9". Details on use and acceptable materials can be found at soa.syr.edu/vacuum.

Etiquette

The fabrication lab/model shop can be a stressful environment, with sharp tools, heavy equipment, and a high noise level during busy times. Respect of others in this space is critical for the shop to function properly. The shop's staff members are trained to assist students with their projects, provide guidance in the safe and proper use of equipment, and perform maintenance on equipment when needed. They are also responsible for workflow logistics, and need to know in advance what people plan to do.

Please avoid last-minute work. This interferes with normal work flow and can create a hazardous environment. All users are required to clean up their work after each session.

Additional policies:

- Start assignments early to give yourself and the shop staff time to work through the details.
- Bring drawings to discuss with shop staff. They can help you decide on materials and methods.
- Safety glasses and closed-toed shoes are required attire.
- Tie back long hair, and contain loose clothing and jewelry, to avoid getting caught in machinery.
- Have a cut list ready before occupying a machine. Others may be waiting to use it.
- Ask for training when you need it. Assumptions can be hazardous!
- Let the staff know if you need to leave something in the shop.
- Let the staff know if you need to borrow something from the shop.
- CLEAN UP ANY MESS YOU MAKE!!!

1.4 SUMMER USE OF COMPUTER LAB AND FABRICATION RESOURCES

Students must be registered for a summer architecture course or employed by the School of Architecture in order to use the School's facilities over the summer. This includes the computer labs, plot room, laser cutters, CNC, wood shop, etc. Working for a faculty member without being paid by the school does not qualify. Working on a competition, taking a summer course at another university or college, or working on thesis also do not qualify. This is a matter of University policy and relates to questions of legal liability.

1.5 EMAIL

Email is the School and University's primary means of communicating with students. All official email from University and School officials is through each student's [netid]@syr.edu email account. Students may have accounts through other systems. However, all students and faculty are required to check their @syr.edu email address regularly. Students can do this through SUmmail at sumail.syr.edu. Please do not use the SU Google Apps @g.syr.edu account for emailing.

2 UNDERGRADUATE ACADEMIC RULES AND POLICIES

2.1 ACADEMIC INTEGRITY

Syracuse University's Academic Integrity Policy reflects the high value that we, as a university community, place on honesty in academic work. The policy defines our expectations for academic honesty and holds students accountable for the integrity of all work they submit. Students should understand that it is their responsibility to learn about course-specific expectations, as well as about university-wide academic integrity expectations. The policy governs appropriate citation and use of sources, the integrity of work submitted in exams and assignments, and the veracity of signatures on attendance sheets and other verification of participation in class activities. The policy also prohibits students from submitting the same work in more than one class without receiving written authorization in advance from both instructors. Under the policy, students found in violation are subject to grade sanctions determined by the course instructor and non-grade sanctions determined by the School or College where the course is offered as described in the Violation and Sanction Classification Rubric. SU students are required to read an online summary of the University's academic integrity expectations and provide an electronic signature agreeing to abide by them twice a year during pre-term check-in on MySlice. For more information and the complete policy, see class.syr.edu.

Students in the School of Architecture are expected to conduct themselves in a manner that reflects the ethical ideals of the profession of architecture. Any breach of academic integrity is a violation of an assumed trust between the School and the student.

It is important to remember that the Academic Integrity Policy applies to all academic work. In studio the student may not copy, paraphrase, or reuse outside sources or the work of other students unless credit is clearly given. All media—including text, images and video, whether scanned from a book, downloaded from the internet or obtained by any means—must be properly credited in all presentations. If a student receives help in the execution of the design presentation (i.e., assistance in preparing drawings, images, digital or physical models, animations, or work of any kind), proper credit must be

given at the time of presentation. Proper credit must be given if work is the result of a collaboration. Students at all levels are not permitted, under any circumstances, to offer compensation for assistance by other individuals in the preparation of any project.

Presenting someone else's work, in any medium, as one's own work is plagiarism, and will be considered by the School to be as serious a breach of academic integrity as cheating on exams.

Students may not present the work of others either as their own academic work or without proper citation in any context, including coursework, but also the preparation of a portfolio, website, or presentation outside the confines of an academic course. Such acts will be considered plagiarism, and treated as a breach of the Academic Integrity Policy.

Theft of Intellectual Property: Credit to Collaborators

Design and production collaborators for academic projects, thesis assistants, and work produced for a firm must be credited specifically. Credit must appear on sample pages and portfolios, or posted on the wall during thesis reviews.

Examples:

- Design collaboration with J. Doe. All images produced by T. Wang unless otherwise noted
- Design and production collaboration with D. Park
- Thesis Assistants – K. Okonjo, model. P. Rodriguez, rendering
- Rendering produced for Samson Architects

Students who believe they have observed a violation of the Academic Integrity Policy should report the case to their instructor or the associate dean immediately. Students who believe they have observed a violation outside the confines of an academic course should report the case to the associate dean.

2.2 GRADES

Design Grade Requirements

During the first two years in design studio (ARC 107, ARC 108 and ARC 207, ARC 208), a semester grade of 'D' is a passing grade provided a cumulative design GPA of 2.0 is achieved for the two-semester academic year.

If studio GPA for the year is less than 2.0, the design faculty for that year will review the student's work and performance for the two semesters involved and decide whether repeating one semester or the entire year is required, or whether the student may advance to the next design year with the requirement that the missing grade points be made up during the subsequent year's studios. The decision of the faculty is final; students are not present during these reviews. Students are advised to keep records of the year's work for possible faculty review and, if necessary, should be prepared to make the material available for review before leaving campus in May.

A minimum grade of 'C' is required in ARC 307, ARC 407, ARC 408, and ARC 409. In cases where students are required to repeat design studios, one 6-credit studio may be petitioned as open elective credits toward the degree.

Thesis Prep and Thesis Grade Requirements

In ARC 505 Thesis Preparation, a minimum grade of 'C' must be achieved before being allowed to enroll in ARC 508 Thesis. Grades of 'C-' and 'D' are insufficient. In Thesis, a grade of 'D' is passing and acceptable.

One of the requirements of thesis is the submission of a document that outlines the thesis, compiles the relevant research and analysis completed in Thesis Prep and Thesis, and documents the final design produced during the thesis semester. Submission of the thesis document is a prerequisite for passing the course. It must be completed in order for any student to receive a grade and for certification of degree.

Mandatory Archiving Policy

The school collects and archives student work. Students are required to upload their work towards the end of each semester to a designated set of course folders on the network. Detailed steps to accomplish this, including file naming conventions and file formats, are distributed by faculty towards the end of each semester. Students who fail to submit work for archiving risk not receiving a grade in that course or studio.

Grading Guidelines for Design Studios

The following grading guidelines used by all design instructors when awarding grades in all Design Studio courses:

A	Performance of superior quality , intellectually, formally and technically. There is clear evidence of genuine talent and architectural insight. Reserved for work that is extremely sound and not merely flashy.
B	Performance of good quality that has aesthetic merit and technical competence, although some problems are noted. Work reflects a solid commitment to the learning process and an understanding of the issues.
C	Performance of acceptable quality that meets the basic goals of the exercise, is presented in a complete manner and does not contain serious errors of judgment or omission.
D	Performance of inferior quality that may reflect a conscientious effort on the part of the student, but contains many serious errors of judgment, lacks aesthetic skill and/or is incomplete in presentation. The work does not meet the instructional goals in several areas.
F	Performance that is seriously deficient in merit and effort. Given to those projects that reflect a lack of class attendance, significant incompleteness and/or lack of interest in the subject material. Student should be counseled about commitment to studies and the possibility of transferring out of architecture.

Studio work is graded on the basis of actual performance rather than effort or potential. Performance in this case is defined as a combination of intention, participation, and production.

Incompletes

A student may request an 'I' (Incomplete) grade if the student has exceptional circumstances that prevent him or her from fulfilling all course requirements on time. Students will work with the instructor to determine if an 'Incomplete' is warranted, and if so, the terms of the 'Incomplete' agreement (e.g. provisional grade, remaining work to be submitted, and deadline to submit outstanding work). 'Incomplete' should only be granted if the student has completed enough course content to have a grade assigned based on the work to date. An 'Incomplete' is not available if the student has not completed enough work on which to base a grade. A maximum of one year is allowed for removal of the 'Incomplete.'

Auditing

Auditing a course allows students to expand their knowledge without having the responsibility of fulfilling the academic requirements for that course. No academic credit is earned. Audited courses appear on grade reports and transcripts with no credit hours and a grade of 'AU.' Audited courses do not affect the student's GPA and do not count towards any School or University requirement.

Students must be enrolled in the class prior to requesting to audit. The course instructor will approve the request to audit, and the signed [Audit Request Form](#) must be submitted to your academic advisor by the Grading Option Deadline. Once the request to audit is processed, the decision is final and cannot be rescinded. Students may withdraw from an audited course in the usual manner.

Full-time undergraduate students are not charged for auditing during the academic year. Students registered for less than 12 credits pay for audited courses at 60% of the regular per credit fee. See the **Tuition, Fees and Related Policies bulletin for details:** bfas.syr.edu/bursar/tuition-fees-and-related-policies-bulletin.

Students will not be permitted to audit an architecture elective if there is an active wait list for that class with students who need to take the class for credit.

Pass/Fail Grading Option

Student may elect to take a class Pass/Fail. Only Open Electives may be taken Pass/Fail. Students should visit their MySlice portal, Student Home /eForms to elect or rescind the grading option for pass/fail.

Grade Appeal Policy

The following set of statements is aligned with normal practice at Syracuse University for a student seeking resolution to a grievance of a course grade.

1. The assignment of grades at SU is the responsibility of the faculty; once assigned by a member of the faculty, a grade cannot be changed without his or her consent, except by due process as detailed below. In cases where the instructor of record is not a member of the faculty, the faculty member charged with oversight of that instructor is ultimately responsible for the assignment of grades.
2. **A course grade is based upon the instructor's professional assessment of the academic quality of the student's performance on a body of work. Such assessments are non-negotiable, and disputes about them do not constitute valid grounds for an appeal.** Valid grounds can arise, e.g., when an instructor fails to provide or implement uniform and consistent standards, or bases an assessment on criteria other than academic performance.
3. Unless there are issues of a personal nature, the appeal process for a grade dispute begins by submitting a written appeal to the instructor of record/faculty member in charge of the course that describes the basis for the grievance. Failure to comply with this may be grounds for denial of subsequent appeals. Any appeal beyond the instructor of record must be initiated in writing to the department chair before the last day of classes of the academic semester immediately following the one in which the aggrieved grade was received by the Registrar. This written appeal should describe the basis for the grievance, the informal steps taken to resolve the dispute, and the remedies sought.
4. If satisfaction is not obtained at this or any subsequent level, the appeal always moves to the next level of authority. The levels in succession are: the instructor of record, faculty member in charge of the course, the department chair and the associate dean of the School.
5. At each level of appeal, a fair and thorough hearing of all views is sought before a decision is made. This may, but need not, require a face-to-face meeting of the parties directly involved in the dispute. A decision may be reached if both student and instructor agree. If such a decision cannot be reached, a panel designated by the college for this purpose shall hear the case.
 - a. The panel shall have a quorum of three faculty members.
 - b. All voting members of the panel shall be tenured faculty.
 - c. No member of the panel shall hear a case who has been involved in a previous stage of the appeal.
 - d. Membership of the panel shall be fixed and made public in a given academic year, though replacements may be made in the event of resignations.
 - e. Membership of the panel shall be approved by the faculty of the school or college, or by a representative group of the faculty, in each academic year.
 - f. The Senate Committee on Instruction shall approve the manner of selection and charge of a school or college's panel before its first case. The committee shall also approve any subsequent changes in the manner of selection or charge of each college or school's panel. The panel may, at its discretion, meet with the aggrieved parties either separately or together. The decision of this panel, either to deny the student's original appeal or to authorize the Registrar to change the grade, shall be final. The panel shall inform both the student and the instructor of its decision in writing. The panel shall also summarize the case and its outcome in a written report to the Senate Committee on Instruction. Said committee may include summary statistics on grade disputes in its final report to the Senate.
6. The only grounds for any further appeal shall be irregularities in the above procedures.
7. In such cases, either party may appeal the final decision of the faculty panel to the Senate Committee on Instruction. The Senate Committee on Instruction may either deny the appeal or insist that the procedure begin anew at the point the irregularity occurred.
8. All stages of the appeal process shall be kept confidential to the maximum extent possible, consistent with the Family Educational Rights and Privacy Act.

Attendance

Students are expected to attend each class punctually and for the entire class period. Students should inform their instructor in advance of any expected absence or abbreviated attendance.

It is each student's responsibility to notify the School or the Dean of Students Office if extended absence due to illness or other reasons is expected. Absences due to illness or other legitimate reasons may be excused.

If a student does not notify the instructor or if the excuse is not accepted, the absence is considered unexcused. Faculty members have the right to establish a specific attendance policy that can influence a student's grade for that course. Class specific attendance policies are available in the class

syllabus. It is the student's responsibility to make-up any missed work. Course grades reflect demonstrated understanding of course content. Missing class meetings means missing content, which may affect your ability to demonstrate comprehension of that content resulting in an impact on your course grade. An extended absence from any class, even for medical reasons, can result in the requirement to drop or withdraw from the course.

Graduation Requirements

In addition to fulfillment of all specific course requirements, graduation from the School of Architecture requires a minimum overall GPA of 2.0 in three areas: in all courses (including all architecture and non-architecture coursework and thesis); in all architecture courses (including thesis); and in all required design courses (not including thesis).

Repeating Courses

Students may retake a course for grade improvement. (Note: Students receiving a TAP award should contact their financial aid advisor for financial implications of repeating courses). The lower grade remains on the official transcript, but only the higher of the two grades is calculated into the GPA. Students must re-register for courses they wish to repeat; under no circumstances are students allowed to merely 'sit in' on a course in a subsequent semester, and have a new grade submitted.

A student may not register for the same architecture course more than three times. For more information on repeated courses, please refer to the [Academic Rules](#) section of the course catalog.

2.3 ACADEMIC STATUS

College Probation

A student will not be considered in good academic standing and will be placed on College Probation when any of the following conditions exist:

- the semester GPA is less than 2.0
- the architecture semester GPA is less than 2.0
- 12 credits or more of 'incomplete' or 'NA' grades are carried
- fewer than 24 credits have been earned over a 12-month period

College Suspension

After two consecutive semesters of academic performance below the probation threshold, for any of the above conditions, the student will be placed on college suspension and be required to take a minimum one-year leave of absence from the School of Architecture. A student on leave from the School may, under certain circumstances, petition to register for University courses outside the School. Re-admission to the School after such a leave of absence will be on a two-semester trial basis; that is, in each of the two subsequent semesters, a minimum 2.0 GPA must be achieved in all courses.

Four consecutive semesters on probation will result in ineligibility to re-register as an architecture student. Seriously departing from standards required for good academic standing or failure to make progress towards a professional degree requires that the student be placed on **permanent academic suspension**. This means that the student will no longer be able to continue as a student at the School of Architecture.

For more information on policies that relate to probation, suspension, and other academic actions such as leave of absence, withdrawal, and readmission, please refer to the [University Academic Rules](#).

Full-time and Part-time Status

Each student in the School of Architecture is required to register as a main-campus student for 10 semesters. Registering for less than 12 credits in a Fall or Spring semester will change the student's status from full-time to per-credit, and students will be charged the main-campus per-credit tuition rate.

Rate Exception

Bachelor of Architecture students who need an 11th semester to finish degree requirements may petition for University College rates for their final 11 credit hours. This may only happen after completion of 10 full-time semesters. Petitions must be submitted to your academic advisor for review.

2.4 STUDIO ASSIGNMENTS AND OPTIONS

For the first five semesters, each student will be assigned to a specific studio section. These are referred to as the 'core' studios and must be taken in sequence as shown on the curriculum chart. Efforts are made to ensure that no student has the same studio instructor twice. Studio sections are determined by the school and are final. Students are notified of their studio assignment via email prior to the start of studio each semester.

Third- and fourth-year studios (ARC 407 and ARC 408) may be taken on main campus or one of our global campuses. Studio assignments for the main campus visiting critic studios are made on the basis of a first-, second-, and third-choice balloting system, with first-choice being given whenever possible.

2.5 GLOBAL PROGRAMS

The School of Architecture offers a variety of opportunities for off-campus study. These include regular semester-long programs in Florence, London, and New York City. To participate in off-campus programs, students must be in good academic standing, with a GPA of 2.5 or higher.

While every attempt will be made to accommodate accepted students for the semester of their choice (fall, spring and/or summer), the School of Architecture reserves the right to apportion students among semesters to create balanced enrollments.

2.6 PETITIONING PROCESS

In those instances where an individual is requesting a waiver of School policy, a review of an academic action, or special consideration, it is necessary to file a Petition to the Faculty form. This standard form is available at registrar.syr.edu/general/forms and should be completed and signed by the student. Any supporting documentation should be attached to the form. Petitions are submitted via email to your academic advisor to be reviewed by the Architecture Undergraduate Program Chair.

3 GRADUATE ACADEMIC POLICIES

3.1 ACADEMIC INTEGRITY

Syracuse University's Academic Integrity Policy reflects the high value that we, as a university community, place on honesty in academic work. The policy defines our expectations for academic honesty and holds students accountable for the integrity of all work they submit. Students should understand that it is their responsibility to learn about course-specific expectations, as well as about university-wide academic integrity expectations. The policy governs appropriate citation and use of sources, the integrity of work submitted in exams and assignments, and the veracity of signatures on attendance sheets and other verification of participation in class activities. The policy also prohibits students from submitting the same work in more than one class without receiving written authorization in advance from both instructors. Under the policy, students found in violation are subject to grade sanctions determined by the course instructor and non-grade sanctions determined by the School or College where the course is offered as described in the Violation and Sanction Classification Rubric. SU students are required to read an online summary of the University's academic integrity expectations and provide an electronic signature agreeing to abide by them twice a year during pre-term check-in on MySlice. For more information and the complete policy, see class.syr.edu.

Students in the School of Architecture are expected to conduct themselves in a manner that reflects the ethical ideals of the profession of architecture. Any breach of academic integrity is a violation of an assumed trust between the School and the student.

It is important to remember that the Academic Integrity Policy applies to all academic work. In studio the student may not copy, paraphrase, or reuse outside sources or the work of other students unless credit is clearly given. All media—including text, images and video, whether scanned from a book, downloaded from the internet or obtained by any means—must be properly credited in all presentations. If a student receives help in the execution of the design presentation (i.e., assistance in preparing drawings, images, digital or physical models, animations, or work of any kind), proper credit must be given at the time of presentation. Proper credit must be given if work is the result of a collaboration. Students at all levels are not permitted, under any circumstances, to offer compensation for assistance by other individuals in the preparation of any project.

Presenting someone else's work, in any medium, as one's own work is plagiarism, and will be considered by the School to be as serious a breach of academic integrity as cheating on exams.

Students may not present the work of others either as their own academic work or without proper citation in any context, including coursework, but also the preparation of a portfolio, website, or presentation outside the confines of an academic course. Such acts will be considered plagiarism, and treated as a breach of the Academic Integrity Policy.

Theft of Intellectual Property: Credit to Collaborators

Design and production collaborators for academic projects, thesis assistants, and work produced for a firm must be credited specifically. Credit must appear on sample pages and portfolios, or posted on the wall during thesis reviews.

Examples:

- Design collaboration with J. Doe. All images produced by T. Wang unless otherwise noted
- Design and production collaboration with D. Park
- Thesis Assistants – K. Okonjo, model. P. Rodriguez, rendering
- Rendering produced for Samson Architects

Students who believe they have observed a violation of the Academic Integrity Policy should report the case to their instructor or the associate dean immediately. Students who believe they have observed a violation outside the confines of an academic course should report the case to the associate dean. It is the duty of the faculty and administrators at the School to bring cases of suspected violations to the University's Center for Student and Learning Success for adjudication within five days.

3.2 GRADES

Grading Chart

The following chart shows the grading system currently in effect throughout the University.

A	= 4.0
A-	= 3.6667
B+	= 3.3333
B	= 3.0
B-	= 2.6667
C+	= 2.3333
C	= 2.0
C-	= 1.6667
D	= N/A
F	= 0

Advanced Standing and Credit Evaluation Exams

Advanced standing is determined at the time of admission after a complete review of the applicant's portfolio by representatives of the faculty. Students who are accepted with advanced standing will receive credit for ARC 604, ARC 605, ARC 621, ARC 681, and ARC 650.3, along with 1 history elective, 2 professional electives, and 2 open electives

Credit evaluation exams in the areas of Architectural History and Structures are offered during the orientation week prior to the first week of classes. Students who receive a grade of "B" or better on these exams will receive equivalency credits in these subject areas that can be applied to the total number of credits required to graduate. Students entering with advanced standing who receive a grade of "B" or better will be able to waive specific courses in these subject areas, but will need to substitute elective credits, as 76 credits is the fewest credits with which the M.Arch. degree can be completed.

Graduation and GPA Requirements

All graduate students at Syracuse University must achieve a 2.8 GPA in the first 30 credit hours of graduate work in order to maintain matriculated status. Equivalent credit is not included in the computation of the GPA for graduation.

Students must also maintain a GPA of 2.8 for any one semester or they will be placed on academic probation

Students on academic probation who do not achieve a GPA of 2.8 in their probationary semester will be required to take a one year leave of absence from the program. Details on academic probation appear elsewhere in this handbook.

Students in the M.Arch. program must maintain a design GPA of at least 2.8 for the first two consecutive studios in the curriculum (ARC 604, 605 OR ARC 606, 608). Otherwise, one of the two studios must be repeated and completed with a grade sufficient to achieve the 2.8 average.

The minimum passing grade for graduate students is "C-", however, the minimum passing grade for Visiting Critic Studio (ARC 608 & 609) is "C".

In order to graduate, students must achieve a 3.0 GPA overall, excluding transferred credit.

Incompletes

A student may be required to complete or repeat certain elements of a course to remove an 'I' (Incomplete) grade. Students should not register for the course a second time; Incomplete grades are not removed by re-registering for the course.

A student may request an Incomplete if the student has exceptional circumstances that prevent him or her from fulfilling all course requirements on time. Students will work with the instructor to determine if an incomplete is warranted, and if so, the terms of the Incomplete agreement (i.e. provisional grade, remaining work to be submitted, and deadline to submit outstanding work). Incomplete should only be granted if the student has completed enough course content to have a grade assigned based on the work to date. An Incomplete is not available if the student has not completed enough work on which to base a grade.

A maximum of one year is allowed for removal of the 'Incomplete.'

Auditing

Audited courses are non-credit, do not meet any degree requirements, and are not counted toward enrollment status. Auditing a class is free for graduate students who are taking nine or more credit hours during the fall and spring semesters. If a student is taking fewer than nine credits, tuition for the course is 60% of the normal cost. Courses audited in the summer are charged 60% of normal cost regardless of the amount of credits registered.

Auditing a course allows students to expand their knowledge without having the responsibility of fulfilling the academic requirements for that course. No academic credit is earned. Audited courses appear on grade reports and transcripts with no credit hours and a grade of 'AU.' Audited courses do not affect the student's GPA and do not count towards any School or University requirement.

Students must be enrolled in the class prior to requesting to audit. The course instructor will approve the request to audit, and the signed "Audit Request Form" must be submitted to your academic advisor by the Grading Option Deadline. Once the request to audit is processed, the decision is final and cannot be rescinded. Students may withdraw from an audited course in the usual manner.

Students will not be permitted to audit an architecture elective if there is an active wait list for that class with students who need to take the class for credit.

Grade Appeal Policy

The following set of statements is aligned with normal practice at Syracuse University for a student seeking resolution to a grievance of a course grade.

1. The assignment of grades at Syracuse University is the responsibility of the faculty; once assigned by a member of the faculty, a grade cannot be changed without his or her consent, except by due process as detailed below. In cases where the instructor of record is not a member of the faculty, the faculty member charged with oversight of that instructor is ultimately responsible for the assignment of grades.
2. **A course grade is based upon the instructor's professional assessment of the academic quality of the student's performance on a body of work. Such assessments are non-negotiable, and disputes about them do not constitute valid grounds for an appeal.** Valid grounds can arise, e.g., when an instructor fails to provide or implement uniform and consistent standards, or bases an assessment on criteria other than academic performance.
3. Unless there are issues of a personal nature, the appeal process for a grade dispute begins with the instructor of record. Failure to comply with this may be grounds for denial of subsequent appeals. Any appeal beyond the instructor of record must be initiated in writing to the department chair before the last day of classes of the academic semester immediately following the one in which the aggrieved grade was received by the Registrar. This written appeal should describe the basis for the grievance, the informal steps taken to resolve the dispute, and the remedies sought.
4. If satisfaction is not obtained at this or any subsequent level, the appeal always moves to the next level of authority. The levels in succession are: the instructor of record, faculty member in charge of the course, the department chair and the associate dean of the School.
5. At each level of appeal, a fair and thorough hearing of all views is sought before a decision is made. This may, but need not, require a face-to-face meeting of the parties directly involved in the dispute. A decision may be reached if both student and instructor agree. If such a decision cannot be reached, a panel designated by the college for this purpose shall hear the case.
 - a. The panel shall have a quorum of three faculty members.
 - b. All voting members of the panel shall be tenured faculty.
 - c. No member of the panel shall hear a case who has been involved in a previous stage of the appeal.
 - d. Membership of the panel shall be fixed and made public in a given academic year, though replacements may be made in the event of resignations.
 - e. Membership of the panel shall be approved by the faculty of the school or college, or by a representative group of the faculty, in each academic year.

- f. The Senate Committee on Instruction shall approve the manner of selection and charge of a school or college's panel before its first case. The committee shall also approve any subsequent changes in the manner of selection or charge of each college or school's panel. The panel may, at its discretion, meet with the aggrieved parties either separately or together. The decision of this panel, either to deny the student's original appeal or to authorize the Registrar to change the grade, shall be final. The panel shall inform both the student and the instructor of its decision in writing. The panel shall also summarize the case and its outcome in a written report to the Senate Committee on Instruction. Said committee may include summary statistics on grade disputes in its final report to the Senate.
6. The only grounds for any further appeal shall be irregularities in the above procedures.
7. In such cases, either party may appeal the final decision of the faculty panel to the Senate Committee on Instruction. The Senate Committee on Instruction may either deny the appeal or insist that the procedure begin anew at the point the irregularity occurred.
8. All stages of the appeal process shall be kept confidential to the maximum extent possible, consistent with the Family Educational Rights and Privacy Act.

3.3 ACADEMIC ACTIONS

Academic Probation

Students in the School of Architecture will be placed on academic probation when their fall or spring semester GPA is less than 2.8, and will be advised of this action in a letter from the Chair of Graduate Programs. Grades received during the summer, including study abroad, are not included in this policy. Students with a GPA of less than 2.8 for two consecutive fall and spring semesters will be required to take a minimum one-year leave of absence. Re-admission after such a leave of absence will be on a two-semester trial basis during which the student must take a minimum of 12 credit hours per semester and satisfy the minimum academic GPA requirements mentioned above to remain in the program. Students in the latter stages of the program who satisfy the previously mentioned criteria, but have a cumulative GPA below 3.0, will be required to submit a plan for attaining the 3.0 GPA required to graduate. For more information on policies and procedures, please refer to the section, [Academic Rules](#), in the Graduate Course Catalog.

Leave of Absence

Students can initiate a leave of absence for financial, health, or personal reasons. This is usually granted for a maximum of one year. The official Leave of Absence form requires a description of conditions of re-admittance into the program, determined by the chair of graduate programs, or the dean, and agreed to by the student. If the leave is for health reasons, submission of a medical statement is required. Students receiving financial aid must inform the Office of Financial Aid. To initiate re-admittance, the student must file an [application for readmission form](#) with the graduate program and the graduate school. The effective date of any leave of absence is recorded on the student's transcript.

3.4 GLOBAL PROGRAMS

The School of Architecture offers a variety of opportunities for off-campus study. To participate in off-campus programs, students must be in good academic standing, with a GPA of 2.5 or higher.

Scholarship is available for Global Programs, however, students must be registered for their program by April 15 in order to be considered for any scholarship for the upcoming summer (programs offered between May and August).

While every attempt will be made to accommodate accepted students for the summer program of their choice, the School of Architecture reserves the right to apportion students among semesters to create balanced enrollments.

3.5 PETITIONING PROCESS

In those instances where an individual is requesting a waiver of School policy, a review of an academic action, or special consideration, it is necessary to file a Petition to the Faculty form. This standard form is available at registrar.syr.edu/general/forms and should be completed and signed by the student. Any supporting documentation should be attached to the form. Petitions are submitted via email to the Graduate Student Advisor to be reviewed by the Architecture Graduate Program Chair.

4 STUDENT EMPLOYEE POLICIES

4.1 GRADUATE ASSISTANTSHIPS

Graduate Assistantships (GAs) are appointed in the areas of teaching and research. GAs in teaching (teaching assistants, or TAs) are awarded for academic merit and demonstrated excellence in a core area of study: Design, Media, History, Theory, Technology, Structures, or Computing. GAs in research (research assistants or RAs) are awarded for academic merit and capacity to assist a particular faculty member in his/her area of research. TAs in design are awarded on an annual basis in a student's final year, while TAs in other fields are awarded at the beginning of the academic year. A GA in the School of Architecture requires a commitment of between 10 to 20 hours per week and provides between six and 12 credit hours of remitted tuition and a stipend each semester. Students must maintain a 3.0 GPA, and may not be enrolled in more than 13 credits during the terms in which they serve as a TA. This may have the impact of extending a student's program by one semester. All new TAs are required to attend an orientation program administered by the Graduate School, and all new and continuing TAs are required to attend a School of Architecture orientation. GAs are assigned by the Chair of Graduate Programs and are administered by the School of Architecture graduate program office.

Eligibility

TA positions are generally awarded to continuing Masters students, with rare exceptions made for outstanding first-year students should the need arise.

Students assigned TAs may not register for more than 13 credits during the academic year terms in which they are serving as a TA. (International TAs who are required by the graduate school to enroll in English language coursework in parallel to their TA assignment must register for no more than 13 credits total, including the language coursework.)

Students must maintain a minimum 3.0 GPA to maintain eligibility for a TA assignment.

To be eligible for a TA appointment for a course, a student must have successfully completed with a grade of B or better, have received equivalent credit from the school's equivalent credit evaluation process, or have transferred equivalent graduate coursework from another institution for the course in question or the MArch equivalent of the BArch course.

Students must have held and successfully completed at least one three-credit course TA assignment to be eligible for a TA assignment in the ARC 107 /108 studio sequence.

End of term student evaluations and faculty assessments of TA performance are weighed heavily in the assignment of TA positions.

Students must not be on probation for Academic Integrity or Student Conduct Violations.

Additionally, students are expected to inform the school of any open Academic Integrity or Student Conduct investigations at the time they are applying to a TAship, and if violations are confirmed during their contract.

4.2 RESEARCH INTERNSHIPS

Research and Design Internships are awarded each semester to provide an opportunity for students to assist faculty with their scholarly and creative work outside of the RA program. These are positions that require a smaller time commitment than an RA, and do not include a tuition award or stipend. Research and Design Interns (RIs) are paid an hourly rate for up to 10 hours per week. In advance of each semester, the graduate office solicits applications from students and faculty.

While all graduate students are eligible for program-sponsored RIs, we prioritize the awarding of RIs to academically qualified students who are not already assigned research or teaching assistantships. Teaching assistants who apply for an RI are considered on a case by case basis to help ensure the integrity and quality of the RI program. It is strongly recommended students enroll in no more than 13 credits while assigned a Research Intern position.

5 TUITION SCHOLARSHIP POLICIES

5.1 GRADUATE TUITION SCHOLARSHIP RENEWAL

Master of Architecture Graduate Tuition Scholarships awarded upon admission are renewable for each academic year (consecutive fall and spring semesters) of the student's degree provided the student maintain full-time status and a cumulative GPA of 3.0. If a student's cumulative GPA falls below 3.0, the Graduate Tuition Scholarship will not be renewed. Following a mandatory advising meeting with the Graduate Program Chair, a revised scholarship offer may be made.

5.2 SUMMER TUITION SCHOLARSHIPS

Students who are enrolled full-time in a required summer of study and are not on academic probation are eligible for a summer tuition scholarship. The scholarship amount is correlated to both the Graduate Tuition Scholarship offered upon admission and the number of summer credits in which the student is enrolled seven days after the first day of the summer registration period. If a student is not enrolled in at least nine credits by this date, they are not considered eligible for summer tuition scholarship support.

5.3 TUITION SCHOLARSHIPS FOR STUDENTS AWARDED TEACHING ASSISTANTSHIPS

Graduate Tuition Scholarships awarded to a student are replaced by the remitted tuition component of an awarded Teaching Assistantship. If, in a subsequent semester, a student in this situation is no longer assigned a Teaching Assistantship, the Graduate Tuition Scholarship originally awarded during admission will be renewed, provided the student is enrolled full time and maintains a cumulative GPA of 3.0.
