

Internship Resources

The Department of Public Administration and International Affairs sees the internship search as an opportunity to develop the skills and knowledge needed to successfully search for jobs in international relations and public policy. As such, we provide support, guidance and mentoring to students during the process, but encourage students to engage in the search directly.

Please use the following resources to help identify opportunities in the international affairs space.

Identifying Organizations

In the international development space, bilateral aid is carried out through partnerships with locally-based organizations, known as implementing partners or grantees. By identifying who works where, it can be helpful to focus on particular sub-fields or employment locations
