

Tag Tables

Tag Tables

Tag tables are rolled out with each new version of Voyager. Some releases have no changes in the tag tables and we are able to use the old tag tables with the new release. When the new tag tables provided with the new release are substantially different then we need to copy our changes over into the new version of the tag tables. Systems usually aids in identifying how different the new files are from the old files. Tag tables are usually "frozen" (Updates completed and handed to Systems) about a month before the upgrade date.

We usually make customizations to the Tag tables provided by Voyager.

```
We make Tag Tables provided by vendor more up to date
We include certain obsolete tags and subfields
We add fields and subfields we use locally that aren't included in MARC
We create customized templates for 006 and 007 fields
```

Changes can be made in two places depending on the nature of the change.

```
Adding a field requires changing the appropriate MARC file and the Master file
Changing or adding subfields requires changing the MARC file
```

Please document all changes in the file header and on the wiki so we can keep track of customizations.

Description	fields	indicator 1	indicator 2	subfields	repeatable	files to changes
Authority records	400			add subf 4	no	AMARC4XX
Authority records	410			add subf 4	no	AMARC4XX
Holdings record	14			9	no	HMARC0XX
Bibliographic record	Add 012	_,0,1	_,0,1	add 1 and i	no	BMARC0XX, Master
Bibliographic record	41			make a repeat	yes field and subfield	BMARC0XX, Master
Bibliographic record	42			add c	no	BMARC0XX
Bibliographic record	90			add h	no	BMARC0XX
Bibliographic record	100,110,130			6	yes	BMARC1XX
Bibliographic record	240,245,246			6	yes	BMARC2XX
Bibliographic record	250,260			6	yes	BMARC2XX
Bibliographic record	440, 490			6	yes	BMARC4XX
Bibliographic record	506, 540			u	yes	BMARC5XX
Bibliographic record	536			add e-h, 6, 8	no	BMARC5XX
Bibliographic record	533			7	no	BMARC5XX
Bibliographic record	653			7	no	BMARC6XX
Bibliographic record	add 692				yes	BMARC6XX, Master
