

Cloud Recordings

Sign in and configure your account at <https://syracuseuniversity.zoom.us/>

Go to your settings, Recording, Enable Cloud Recording.

The screenshot shows the Zoom settings interface. On the left is a navigation sidebar with options: Profile, Meetings, Webinars, Recordings, Settings (highlighted in orange), Account Profile, and Reports. The main content area has tabs for Meeting, Recording (selected), Telephone, and Collaboration Devices. Under the Recording tab, there is a 'Recording' section with two main settings: 'Local recording' and 'Cloud recording'. 'Local recording' is currently turned on (toggle switch is blue) and includes a checkbox for 'Hosts can give meeting participants permission to record locally' which is also checked. 'Cloud recording' is also turned on (toggle switch is blue).

Setting	Description	Status
Local recording	Allow hosts and participants to record the meeting to a local file	On
Hosts can give meeting participants permission to record locally	Hosts can give meeting participants permission to record locally	Checked
Cloud recording	Allow hosts to record and save the meeting / webinar in the cloud	On
