

# What-If Analysis

You can use the What-If functionality to view your audit for:

- [Proposing change](#) in major, declaration of a minor or a concentration, declaring a second major or minor, declaring a dual program, and to see how the proposed changes may affect path toward degree completion.
- [Planning coursework](#) (looking ahead) in your current or proposed curriculum.

## NOTE:

- What-If for proposed curriculum is only available for undergraduate programs. Graduate programs are not included due to the concern of triple counting courses which would be misleading to the student.
- Undergraduate and Graduate students may use the Look Ahead function to plan courses for their current program.
- Undergraduate students may also use Look Ahead to plan coursework in a proposed curriculum.

The What-If Analysis tool can be found under the What-If tab to the right of the Academic tab.

The screenshot shows a user interface with a top navigation bar containing several tabs: '658263814', 'Test, Case Henry', 'Career Undergraduate', 'Academic Level Sophomore', 'College Maxwell', and 'Major Econo'. Below these tabs, there is a section for 'Advisor(s)' listing 'Bevans, Derrick T.', 'Chiaravallotti, Stephanie S.', and 'Horne, Jon N.'. A secondary navigation bar shows 'Academic' and 'What-If' tabs, with 'What-If' being the active tab. Below this, the heading 'What-If Analysis' is displayed.

## Steps for running a What-If analysis:

- Click What-If tab in Worksheet
- Expand What-If analysis

The screenshot shows the expanded 'What-If Analysis' tool. At the top, there are three checkboxes: 'Use current curriculum' (unchecked), 'In-progress classes' (checked), and 'Preregistered classes' (checked). Below this is a 'Program' section with three dropdown menus: 'Catalog year \*', 'Degree \*', and 'Level \* Undergraduate'. At the bottom, there is an 'Areas of study' section with a list of criteria.

- Determine if planning curriculum change, planning coursework or both for selection criteria
- Include in-progress/preregistered coursework or deselect if do not want to include in what-if
- Select Criteria
- Click process to run What-If audit

## To run another what-if:

- Expand What-If analysis again
- Prior selection criteria still displays
- Reset fields or change selections
- Click Process
- Click Print if you wish to print or save pdf of What-If audit

## To return to Worksheet:

Click Academic tab to left of What-If
