## Blackboard Analytics

### What is it?

Blackboard Analytics for Learn combines extensive data from Blackboard with student and course attributes from our student information system (SIS) and enterprise resource planning (ERP) to create comprehensive reports and dashboards for our students, instructors, staff, and leadership.

 **Note: Course Analytics does not work in a merged course**

### Instructor Reports

#### 1. Course At-a-Glance

This report compares the course that you are logged into against other courses in the same department.

 **Course At-a-Glance**   
This report compares this course against other courses in the same department.  
> Last Run: Never

#### 2. Activity and Grade Scatter Plot

This report plots the distribution of student activity against their grades in this course.

 **Activity and Grade Scatter Plot**   
This report plots the distribution of student activity against their grades in this course.  
> Last Run: Never

#### 3. Activity Matrix

This report shows a visual representation of student activity in the course.

 **Activity Matrix**   
This report shows a visual representation of student activity in the course.  
> Last Run: Never

#### 4. Course Submission Summary

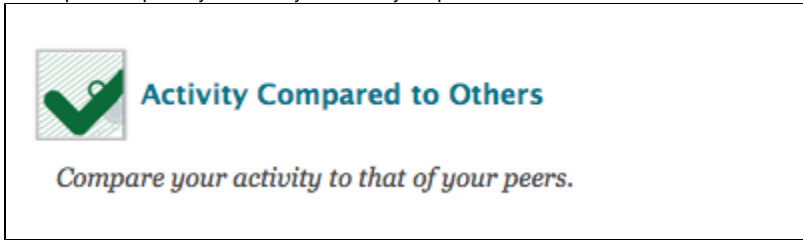

This report shows a summary of user submissions for this course

 **Course Submission Summary**   
Summary of User Submissions for this Course  
> Last Run: Never

### Student Reports

## 1. Activity Compared to Others

This report compares your activity to that of your peers
