

# Remote Access for BBI via Virtual Cluster - Law School

This information has been updated following the decommissioning of SURA and the Mac VPN in Spring 2022.

## Accessing a virtual desktop via RDS

Please visit the [RDS system](#) documentation for detailed information on connecting to the virtual desktop.

- Connect to RDS using your own student credentials
- From the RDS desktop, open Remote Desktop Connection app
  - In Start Menu search bar, type Remote Desktop Connection and select the search result for the app
- Enter the computer name "law-bbivmclust.syr.edu"
- Click Connect
- You may ignore warnings about the remote connection's certificate
- When prompted, enter your ABLT credentials in format "ad\[ABLT##]" without quotes and your assigned password

## Questions?

All questions regarding remote connection to LAW machines can be directed to the LAW IT department at:
