

Vendor-Provided Instructional Technology Training

Overview

In addition to [training opportunities provided](#) by ITS, the vendors of supported instructional technology regularly hold webinars and trainings sessions on how to use their services. They can be beneficial for instructors interested to explore new tools or deepen their knowledge of existing tools. Links to live and recorded opportunities are listed below with the vendor descriptions.

Please note that the products may be implemented differently at Syracuse University or be different because of the ways we have integrated the products. If you have any questions about features or our campus configuration please email help@syr.edu or call the service center at 315-443-2677.
