

# Faculty Titles

Changes to faculty titles MUST be reviewed and approved by that faculty member's home department.

If a web maintainer from a Maxwell center wants to update a faculty member's title, that change must be discussed and approved by their home academic department.

When changing a title, please include that you have confirmed this change with their home department in the note when sending changes for approval and who in the home department confirmed this.

## Title 1

Enter the faculty member's main role with their home unit such as "Professor" or "Assistant Professor".

If they have two or more titles in the SAME unit, use both i.e. "Professor and Chair, Economics Department".

## Titles 2 through 5

Use these titles to create affiliations with other units as-needed.

Rank/order of titles for Maxwell faculty and faculty from other schools/colleges who are associated with a Maxwell department:

- Home department title (including chair, professor of, chair, director of, or in the case of faculty from another school/college, their Maxwell courtesy appointment)
- Dean's Office title (e.g., "associate dean" or named professorship)
- Research Unit Director or other leadership position
- Senior Research Associate
- Research Affiliate
- Courtesy appointments that Maxwell faculty hold in other schools/colleges

Rank/order of titles for faculty from other schools/colleges who are ONLY associated with a Maxwell School research center:

- Maxwell research title (ex: Senior Research Associate, ASPI)
- Home school/college title

\*For examples, please visit the [ASPI faculty page](#).

## Unit associations

Use this selector to connect person to their unit (department, center, etc.) . This creates links on people pages back to their respective units. To add/edit the unit association click on the pencil icon below the unit field.
