

Making Acrobat your default PDF handler on Windows 10

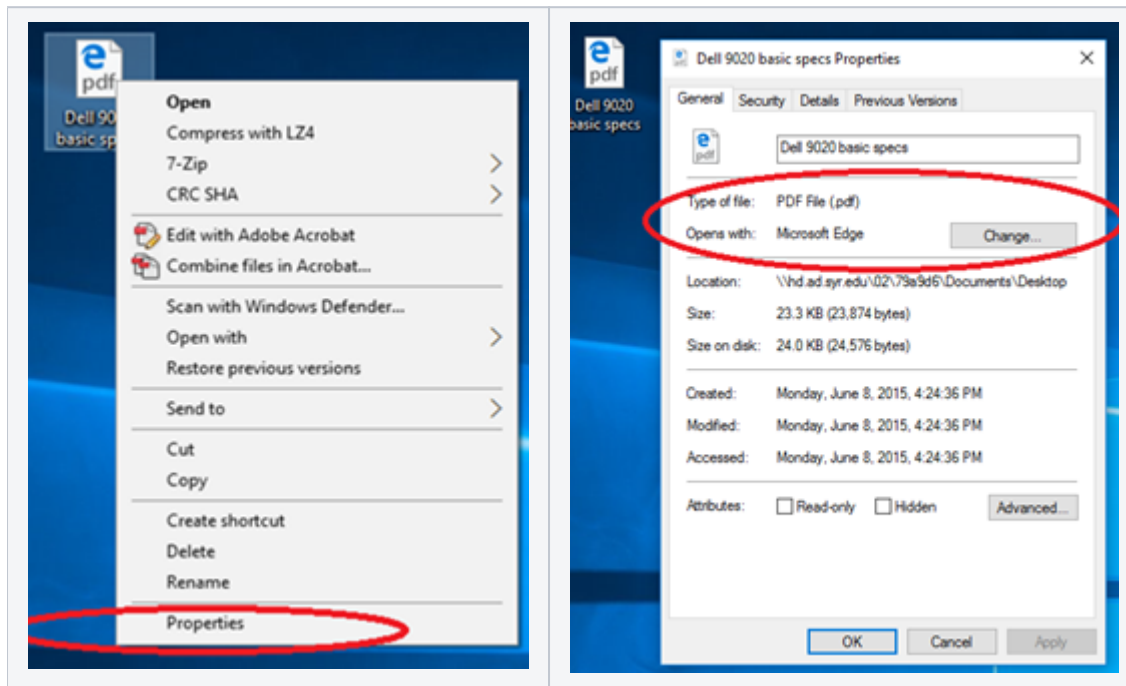

On your Windows 10 machine you might notice that your PDFs look like this:

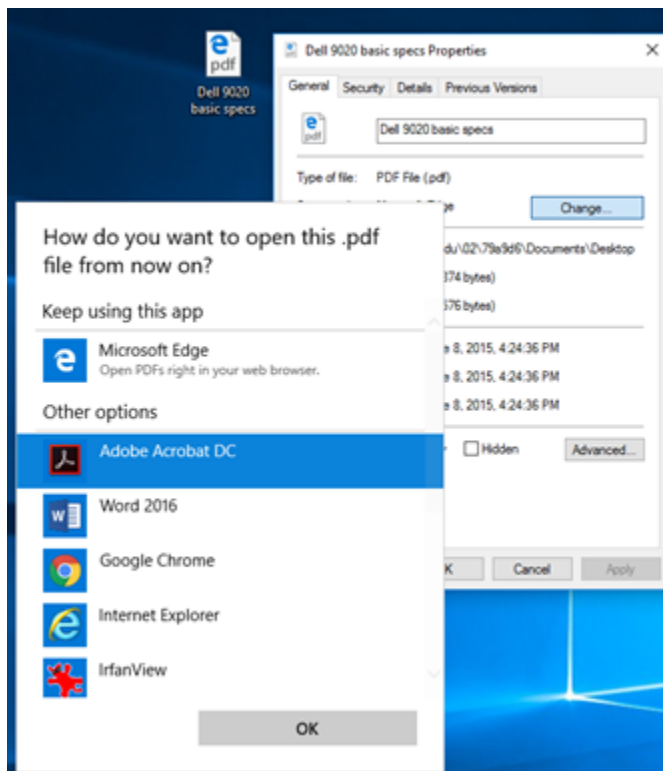

This indicates that Microsoft Edge is set as your default PDF handler.

You can change this.

1. Right click on a PDF and go to Properties.
2. Look at the "type of file" and "opens with" section.
3. Click on the Change button.

- "Adobe Acrobat DC" should appear in the list. Click on it and click OK.

- Click on "Apply" and "OK". All the icons for PDFs should look like this now.
