

Updating Zoom Client

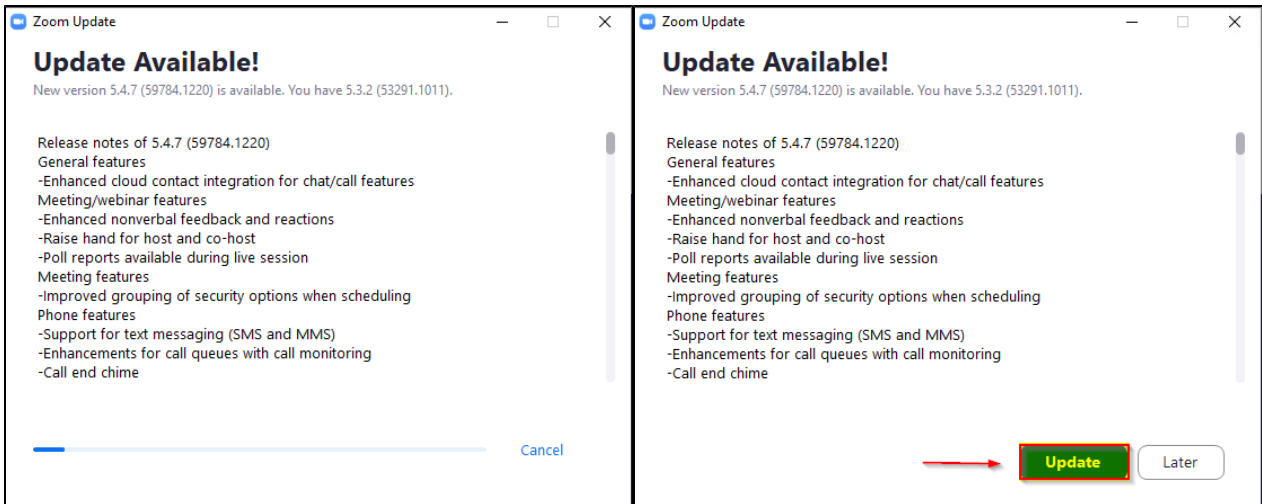

1. Start the Zoom application and log in as usual.

Note: The client update is performed using the Zoom application installed on your computer, not using the 'syracuseuniversity.zoom.us' web portal.

2. In the upper-right, open the 'user options' menu by clicking on the icon with your initials and then choose "Check for Updates":

3. If an update is available, it will be downloading immediately and you'll see a progress bar. When the download finishes, click 'Update'.

4. Zoom will update itself and re-launch, opening to the 'Home' screen:
